Do you have the skills to cope with increasingly competitive business situations?

RTF50103 Diploma of Horticulture

Five full-day workshops with three workplace projects
Program delivered over one semester
Grovelly campus

The Diploma of Horticulture is a broad based qualification focussing on the skills needed to work as a manager in the amenity horticulture industry.

Overview

The program covers the following topics:

- managing plant health
- preparing budgets, estimates and tenders
- collecting and analysing data
- preparing reports
- managing projects
- managing staff and business operation
- negotiating and managing contracts
- providing specialist advice to clients.

Benefits

The key benefits of the program include:

- direct workplace application - the program is structured in a way that allows the participant to apply new skills directly into the workplace
- mentoring support from a content expert via phone and email
- workplace visit by content experts
- program is combined with independent study
- training content is relevant to any industry and to all types of workplace projects
- participant's manager is invited to the workplace project presentation.
